Dear FNS Family,

Nothing is more important to the Family Nature Summits Board of Directors than the safety of our summiteers. As such, I am cautiously looking forward to Family Nature Summits 2020 Redwood Coast Summit taking place this July at Humboldt State University in Arcata, CA. Our phenomenal FNS faculty has been hired and our programming committee has put together an incredible array of activities that will showcase the wonder of the Redwood Coast Location.

The Board of Directors of the Family Nature Summits is closely monitoring the COVID-19 situation and its possible effect on the 2020 Redwood Coast Summit. As of now, the Summit stands as planned.

Per the Humboldt County Department of Health & Human Services, there are no local cases of COVID 19 at this time. Currently many airlines are waiving cancellation or change fees for near term travel, we expect those to be expanded if the COVID 19 situation escalates. As a precaution, FNS recommends you book your plane tickets directly with a carrier (vs. a third party) as sometimes the carriers will not modify flights that are not booked directly through them. Trip Insurance is your individual decision.

We are working closely with Humboldt State University and will continue to monitor information as it is released from The Center for Disease Control, The World Health Organization, and the Humboldt County Department of Health and Human Services. For more information, please visit the following websites.

Humboldt State University: Information on COVID-19: Corona Virus Information
Center for Disease Control: Coronavirus Disease 2019 (COVID-19)
World Health Organization: Coronavirus disease 2019
Humboldt County Department of Health and Human Services: Humboldt Health Alert | Humboldt County, CA - Official Website

Please follow Family Nature Summits on Facebook and subscribe to the Family Nature Summits newsletter for further updates.

FNS is continuing to work on creating a fantastic 2020 summit experience, in a truly spectacular location to celebrate our 50th year.

Warm Regards,
Geri Gagat
President, Family Nature Summit
